SHALDON PARISH COUNCIL

BEACH CLEAN UP 11 MARCH 2026
with
BEACH CLOSURE
From
1300-1700 (at the latest)

With all the storms that have occurred over the last few weeks the beach has a lot of man-made debris on it. At the last council meeting it was decided that the purpose of the clean-up should be to clear all the larger pieces of debris from the beach and deposit them in the skip which will be provided. This will involve heavy machinery to move the larger pieces of debris, such as planks of wood, tree stumps and larger metal pieces from the pier. As a result of the works being undertaken the beach will be closed for the above period for health and safety reasons.

Sand and rocks will not be moved at this stage as there are likely to be more storms and this will be looked at again at the beginning of May. In the meantime discussions with other organisations will be undertaken to try to ensure that any further loss of beach can be avoided and what can be done in the area where it has been lost.

There are already a number of volunteers who have stepped forward so on this occasion the Council is not asking for more residents to come down at this stage.

The Parish Council will do everything it can to do the work as quickly as possible so that the beach can be opened for those who wish to use it.

For those wishing to catch the Ferry to Teignmouth they will be asked to wait in the Ferry Shelter until the Ferry has come up on to the beach when safe passage across the beach will be made.

THANK YOU FOR YOUR PATIENCE WHILE THE ABOVE ESSENTIAL WORK TAKE PLACE.
